| B : 1 egg collected | 7,200yen (Total: 16,800 yen) |
| C : 2-5 eggs collected | 10,800yen (Total: 20,400 yen) |
| D : 6-9 eggs collected | 16,500yen (Total: 26,100yen) |
| E : 10 or more | 21,600yen (Total: 31,200 yen) |

3.Fertilization method

3-1.Mediated sperm (sprinkled) 12,600 yen (any quantity)

3-2.Intracytoplasmic sperm injection (ICSI)

| | |
|------------------------|-----------|
| A : 1 egg collected | 14,400yen |
| B : 2-5 eggs collected | 20,400yen |
| C : 6-9 eggs collected | 30,000yen |
| D : 10 or more | 38,400yen |

※If both are performed (Split-ICSI), ICSI fee from A to D+half of the medial sperm (6300 yen)

※15,000 yen additional if TESE sperm is used

※Oocyte activation (calcium ionophore) 3,000 yen

4.Fertilized egg culture

(starting the day after egg collection: by number of eggs fertilized)

| | |
|------------------------|-----------|
| A : 1 egg collected | 13,500yen |
| B : 2-5 eggs collected | 18,000yen |
| C : 6-9 eggs collected | 25,200yen |
| D : 10 or more | 31,500yen |

※Advanced medical treatment: additional 33,000 yen for time-lapse culture(own cost)

5.Blastocyst culture addition (Number of blastocysts transferred to blastocyst culture)

| | |
|------------------------|----------|
| A : 1 egg collected | 4,500yen |
| B : 2-5 eggs collected | 6,000yen |
| C : 6-9 eggs collected | 7,500yen |
| D : 10 or more | 9,000yen |

6.Embryo transfer

| | |
|--|--|
| A : Fresh embryo transfer | 22,500yen (AHA/GLUEincluding:28,500yen) |
| B : Melting Embryo Transfer | 36,000yen (AHA/GLUEincluding:42,000yen) |
| ※AHA (Assisted Hatching) | 3,000yen |
| ※GLUE (Hyaluronic acid culture fluid added) | 3,000yen |

* The age on the start date of treatment is 6 times if you are under 40 years old,
3 times for those over 40 and under 43 years of age

* The age at the start of treatment means the age at the start of treatment for the first
embryo transfer, the age at which the plan for the relevant egg collection was created.

* If this is the second or subsequent transfer using frozen embryos,
the age will be the age at which the transfer schedule was created.

* In the case of a new egg collection after the previous frozen embryos have been lost,
the age will be the age at which the egg collection schedule was created.

* From the second fresh embryo transfer, AHA and GULE are available upon request.

7.Embryo cryopreservation

| | |
|------------------------|-----------|
| A : 1 egg collected | 15,000yen |
| B : 2-5 eggs collected | 21,000yen |
| C : 6-9 eggs collected | 30,600yen |
| D : 10 or more | 39,000yen |

*The count is limited by age in "transfers".

*If egg collection is performed with insurance, additional egg collection cannot be performed until all frozen embryos are transferred.

*Egg collection for future use is not covered by insurance.

*Mixed treatments are not allowed.

* High-cost medical care reimbursement system is separately available.

English Additions to IVF

Egg collection cycle:

16,500 yen for the first visit of the cycle and 16,500 yen on the day of egg collection (TTL 33,000 yen).

Transfer cycle:

11,000 yen for the first visit of the cycle and 11,000 yen on the day of transfer (TTL 22,000 yen).

English additions are not covered by insurance.
